Brand Guidelines - Winter 2024

A woman with blonde hair, wearing dark sunglasses and a dark grey oversized blazer, is leaning on a marble bar counter. She is holding a smartphone in her right hand. The background shows a bar with shelves of glasses and bottles, illuminated with warm, golden light.

Brand Fundamentals

Welcome to the renaissance...

Bold and hyperbolic, a unique visual aesthetic that is instantly recognisable as boohoo.

A fresh take on our visual language that takes inspiration from boohoo's bold, beautiful campaign legacy but that is also grounded in the now.

Campaigns and campaign stars to ooze confidence without ever taking things too seriously, takes inspiration from popular culture moments, hair and makeup and styling trends.

We find locations that are uncharted territory for other brands and convey exactly what it feels like to be in boohoo...which is to say people will talk... because you look so damn good.

Primary Logomark

Our core colour for the logo is black and white. In certain situations we have alternative options for the logo to be used in the other brand colours. These are for more seasonal specific uses and should not be used for things with high prominence eg. website header.

The chrome logo has been designed and exported to specific styling. Please do not re-create this chrome style on the logo or other assets.

For consistency of look its important you use the logo supplied.

Reduced logo/icon

The reduced logo/icon should only be used where the boohoo brand has already been established . The main uses for the icon will be on such things as app icon where the main logo would struggle to be legible at size.

Rules of Use

Positioning

When positioning the logo, alignment with the composition should be considered, and equal margins always maintained.

The positioning and scale should also be flexible depending on the accompanying content and desired outcome.

Exclusion zones and minimum sizing should be adhered to when positioning the logo.

Primary Logomark

Exclusion Zone

Positioning

To ensure legibility and hierarchy when using the logo, a clear zone should be applied.

The spacing around the logo should be equal to the same height and width as the lower-case letter ‘o’ in the word mark.

This will protect the logo area from any headline, text or obstructive imagery.

Minimum Size

For optimal legibility and accessibility compliance, the logo should never be smaller than the dimensions shown.

The smallest sizes (width) that the logo should appear at are as follows:

Horizontal
Print 34mm
Screen 94px

Things to avoid

To maintain consistency and integrity of the brand, never do any of the following when using the logo:

- 1. Do not recolour
- 2. Do not stretch, skew or distort
- 3. Do not re-write or change the font
- 4. Do not add an effect or drop shadow
- 5. Do not use a stroke outline
- 6. Do not apply a tint
- 7. Do not re-order the components
- 8. Do not rotate

Colour

Colour Palette Overview

The primary brand colours Black and White are to be used for the logo, backgrounds and text highlights

This colour validates against WCAG 2.0 AA guidelines to optimise legibility and accessibility, particularly across digital outputs such as the website.

The other colours in the palette should be used as accent colours to core Black and White. They can be used in certain instances for backgrounds and highlights where approved.

These colours have been chosen to provide a contrast and pop of colour where necessary.

Typefaces Primary

The boohoo brand font is Scale VF Extended. A clean sans-serif font, with a timeless edge.

Scale VF is designed to perform at various sizes and is highly readable in print and on screen.

This is to be used for lead messaging, headlines, subheadings and body copy.

Its versatility allows for impact to be delivered through headlines whilst optimising legibility when used at smaller scales for body copy.

The family contains six weights, and a variation of these can be used to establish hierarchy and highlight key information.

For users with an Adobe Creative Cloud subscription, the font is available free via Adobe Fonts.

SCALE VF EXTRA EXTENDED

From time to time there will be a requirement to introduce additional fonts into the brand.

These should always compliment the brand font, Scale VF. They should bring a trend led edge to the typography to heighten the design.

These guest fonts should be considered and used sparingly, only on treatments for the creative direction.

All fonts used should be from the Adobe Creative Suite to ensure licensing is upheld.
