BRITAIN'S ONLINE DEPARTMENT STORE

When are we at our best?

Debenhams is at our best when we work together to create engaging content and immersive, community-driven experiences that keep our customer's needs at the forefront of every activation. We are a cool, curated & authentic brand that prides itself on being a trusted household name since 1778, that continues to measure up and go beyond in present day.

This document expands on these qualities and helps us to focus on who we are, so that we consistently present ourselves to the customer in our finest light.

DEBENHAMS BRAND GUIDELINES

KEY BRAND TRAITS—WHO WE ARE

WELCOMING

We may have gone from IRL to URL, but ensuring our customers feel welcome remains a core value of Debenhams.com. Our tone of voice should always be charming & engaging, inviting our audience into a world they feel they're part of – no matter what channel they land on.

AUTHENTIC

Customer engagement hinges on authenticity and relatability – two core values that are essential to Debenhams.com. We are original, reliable, and personable in everything we do, known for our community-first experiences, content & communications.

THE DEBENHAMS BRANDS

Our brands have their own story to tell – which means they deserve to establish their own persona outside of Debenhams.com.

For us, that means moving away from the term 'Family of Brands' and replacing it with 'Debenhams Brands', allowing our partnership brands to stand out individually and stay true to their unique identity, while remaining as part of Debenhams' wider heritage collective.

LAST UPDATED - 02/06/2025

OPTIMISTIC

Positivity is key – so optimism is a must! Whether we're stressing urgency through trade-led sales messaging, or launching an exciting new campaign through our multi-channel strategy, we should maintain a light-hearted and cheerful tone that encourages our customer to trust & engage with us.

EMPOWERING

We want our customers to feel inspired, empowered and liberated by everything we do. Our brand caters to all ages, all genders, and all walks of life, across every category - without limitations.

COOL & CURATED

We're looking ahead to the new generation of shoppers and refining our tone of voice in line – without ostracising our main demographic. Debenhams is polished and professional, powered by innovation, and always clued up on the latest lifestyle trends – which should be reflected in a cool, concise, and engaging tone of voice.

HISTORIC

Rooted in our rich heritage, we've been a trusted household name since 1778, and we continue to cultivate our legacy in present day without forgetting how far we've come, evolving into the online department store powerhouse that continues to move with the times.

OUR STRAPLINE

FOR EVERY

Debenhams is a compelling heritage brand that caters to every age, gender & nationality – which is why you can expect to find our ‘For Every...’ strapline across all our larger campaigns and activations.

Our ‘For Every...’ tagline is designed to reiterate our inclusive brand values, showcasing our mission to transcend each generation and find our way into every beauty, fashion & homeware collection – from the Baby Boomers to Gen Alpha – while complementing the wider storytelling aspects of our campaign. The aim? To bring our Debenhams community together as one united collective, one activation at a time.

CORRECT USES

The examples on the right convey the correct usage of our strapline, which should always be on two lines, aligned Left and returned after the EVERY.

The EVERY should always be in a highlighted colour, and appear in our Debenhams Antonio Font (see our Typography section for correct settings).

TYPOGRAPHY—DEBENHAMS ANTONIO BOLD

**DEBENHAMS
ANTONIO BOLD**
-50 TRACKING (-5 IN FIGMA) CAPS

Debenhams Antonio is a reworking of a traditional advertising sans serif typeface. The letter forms have been digitised and then reshaped for use as a webfont, the counters have been opened up a little and the stems optimised for use as bold display font in modern web browsers.

Antonio is our Title font and always is used in all caps with a -50 TRACKING (-5 in FIGMA).

BEST CASE USAGE

With Antonio being our title font we use this in 80% of our messaging. It is only used in a title application and never in body text.

TYPOGRAPHY—DEBENHAMS GEOLOGICA

DEBENHAMS GEOLOGICA

-50 TRACKING (-5 IN FIGMA)

Debenhams Geologica is grounded in the humanist genre, but leans assertively into geometric, constructed letterforms to find its stability.

We use this font in three ways, for sub headings to highlight call outs in main messages.

Second usage as a main header in our high end advertising in partnership with luxury brands.

Thirdly as body copy across the site, within the body copy using various weights depending on situation and callouts.
